I. Presentation

It is my pleasure to present the Fluidra Group's Annual Report on the activities of the Audit Committee in 2011. It was drawn up as provided for in the Company's Articles of Association. It was approved by the Audit Committee, and submitted to and passed by the Company's Board of Directors on 26 March 2012.

In 2011, we have continued working on the strengthening of the Company's internal procedures and controls to ensure that the mechanisms put into place relating to the regulations on Fluidra's ethical conduct were complied with.

The targets we set ourselves for the financial year were successfully met. On the one hand, progress was made in fulfilling the Committee's responsibilities: A diagnosis was made of the internal Financial Information Control Systems, and work carried out to implement its recommendations. The internal Regulations on Conduct in Markets was also updated. Additionally, further progress was made in the company's risk management through a new update of the risk map and improvements to the regulatory audit reviews were also made. In doing so, emphasis was placed on the assessment of internal controls and the aspects that are of most concern to the Management.

The new requirements derived from changes in legislation passed in 2010, such as the Sustainable Economy Act, the Audit Act and the Reform to the Penal Code, which have strengthened the Audit Committee's responsibilities, mean that work continues to be done to strengthen the evidence and supervision of an effective internal control system on financial reporting.

We are now faced with the challenge of 2012. Our aim is to continue ensuring the proper monitoring of the internal control system on financial information to strengthen its reliability, and of the risk management systems in place.

Carlos Ventura Santamans
Chairman of the Audit Committee
